## **Ice and Snow Scavenger Hunt**

- Find a very cold place. Why do you think it is cold here?
- Find a warm place. Why do you think it is warm here?
- Find a windy place.
- Find a place with very little or no wind.
- Find a place with deep snow. Why do you think the snow is deep here?
- Find a place with shallow snow. Why do you think the snow is shallow here?
- Find a place where the wind blew snow into a snow drift.
- Find a place with icicles. Why do you think icicles formed here?
- Look closely at the shape of snow on your glove. Do you see hexagons? Stars? Columns? Needles? Blobs (graupel)? Something else?
- Collect a cup of snow in a measuring cup to bring inside. What happens?
- What is one new question you have about what you noticed?
