

LAB GIRLS GOES WILD!

For girls in grades 5 through 12

THURSDAYS:
January 7, February 4, March 4,
April 1, May 6, and June 3, 2021
5 to 6 p.m. via Zoom

Grow your understanding of science, technology, engineering, and math (STEM) through monthly online meetings with professional wildlife scientists, and hear how their work is making a difference in the world. Participate in online discussions, develop your own skills as a scientist, contribute to important research through citizen science projects like **iNaturalist**, **eBird**, and **Project Squirrel** — and share your experiences through photographs, journals, and artwork.

Free of charge, thanks to the generous support of Harris Center donors and a grant from the New Hampshire Women's Foundation. **For more information or to register, contact Susie Spikol at spikol@harriscenter.org.**

LAB GIRLS
Connecting Girls with **SCIENCE**

LAB GIRLS is facilitated by Susie Spikol (Community Programs Director and Naturalist for the Harris Center for Conservation Education) and Emily Wrubel (UNH Cooperative Extension's STEM Docent and retired middle school math and science teacher).

HARRIS CENTER
FOR CONSERVATION EDUCATION

The Harris Center is a nonprofit organization. This is not a ConVal District-sponsored activity.
