

Take a picture of this scavenger hunt to use on your hike!

Test your observation skills and look for insect sign while you're hiking:

☐ **Bark beetle sign**

☐ **Caterpillar-chewed leaves**

☐ **Skeletonized leaves**

☐ **Small holes in a rotten log**

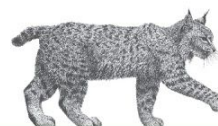

☐ **An ant hill or hole**

☐ **A rolled up leaf**
(there might be an insect inside!)

Want to have more insect-focused fun?

- **Spy on an ant!** Find an ant and watch it explore, hunt for food, and meet other ants. What do you wonder about it?
- **Create a tiny home for a garden insect.** Use leaves, stones, and grass to create it, and find an insect to put in it. See how long it stays.
- **Leave a porch or other outside light on at night.** Check in the morning to see if any insects came at night. What kind of insects do you think they are?
- **On a warm night, go outside and listen for insect sounds.** Try to copy them. How did you do?
