SCHOLARSHIPS ARE AVAILABLE!

HARRIS CENTER FOR CONSERVATION EDUCATION

The Harris Center and its surrounding fields, forests, ponds, and mountains are the backdrop for our summer programs. Children hike, explore, play games, meet new friends, and discover the natural world. We offer adventures that shape appreciation of nature for a lifetime. By experiencing the natural treasures of the Monadnock Region up close and hands on, Harris Center campers build a personal connection to these wild and very special places.

Swamp Walkers ▶

June 24 to 27, entering grades 5 through 8

Get your feet wet this summer with Harris Center naturalists, wetland ecologists, and talented artists as we dive deep into wildlife-rich aquatic habitats — from swamps, marshes, and bogs to streams, lakes, and ponds. Our days will be spent exploring wetlands and waterbodies in search of the life they hold and the mysteries they keep. Bring your fishing pole, rubber boots, and bathing suit as we search for amphibians, reptiles, fish, macroinvertebrates, and more. Find out why wetlands are important and what you can do to help care for these special places!
